

CONSISTENCY

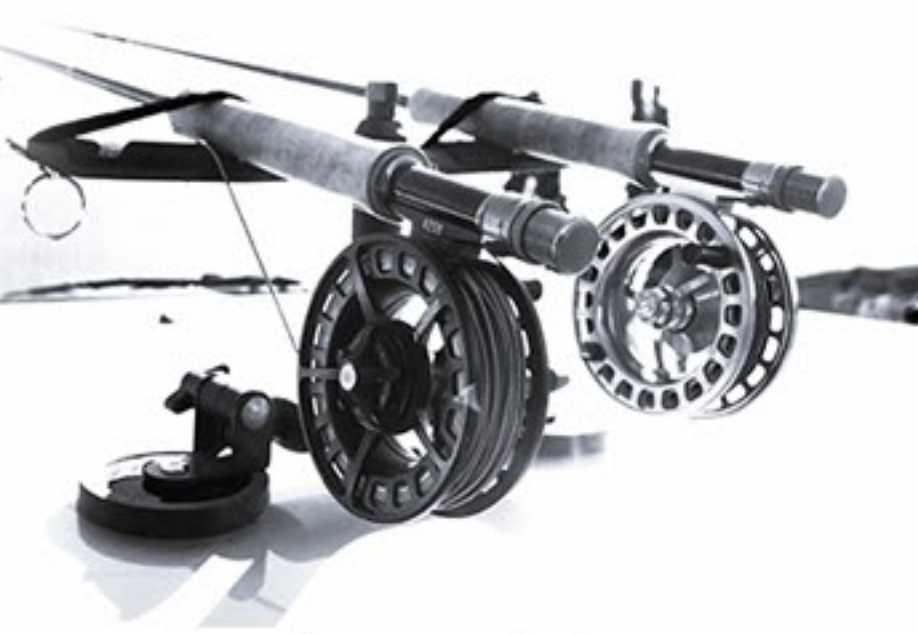

THIS MAY BE THE EXACT WORD THAT MOST ACCURATELY SUMS UP THE REAL LIMAY RIVER FLY-FISHING EXPERIENCE TODAY!

January the Limay has been so productive that I've had a tough time holding myself from writing a new report every day! It's been simply mindblowing!

Lots of huge migratory browns already in the system combined with frequent (if not permanent) spectacular surface action moments for big and super-strong resident rainbows and browns kept the excitement very high. Not to mention the fact that those migratory browns would attack big dry flies too, mouse patterns included!

THE RESULTS WE'VE HAD
(AND WE KEEP HAVING)
SPEAK FOR THEMSELVES!

I think a way to sort of describe the feeling when fishing the Limay is that you never know WHAT will come out of the water next! Anything can happen, anytime!

Weather has been great... and nights memorable, sharing drinks by the outside fireplace under the Milky Way. Now we look forward to a great month of February, just like last year!

This is all for today... I'm off to the river!

Cheers!

Jorge Trucco
